#1 mortality rate of females between the ages of 21-40 in LA county.

Late diagnosis carries a survival rate of less than 7%.

Early diagnosis and treatment has a survival rate of 91%.

LAFD & LOCAL 112 BREAST CANCER AWARENESS MONTH

The Los Angeles City Fire Department and Local 112 Go Pink to raise awareness for Breast Cancer.

All LAFD platoon duty members are authorized to wear pink t-shirts while on duty during the month of October.

The primary goal of LAFD and Local 112 is to support those personally affected by cancer and reach thousands of people with the lifesaving message that cancer prevention and early detection can mean the difference between life and death.
